

TEST CENTER FOR CONTINUOUS MANUFACTURING

Rentable test-systems to conduct your experiments

Discover cutting-edge innovation at our global test centers, where we offer unparalleled testing for volumetric and gravimetric feeders with your specific materials. Our specialists work closely with you, guiding you through each step and tailoring your continuous manufacturing tests to your needs. From dosing and mixing to downstream operations, we ensure comprehensive coverage within our state-of-the-art lab. We rigorously check performance and accuracy per NAMUR NA40 standards, explore machine interactions, and provide critical insights. We also provide sampling, customer training, and remote test monitoring with live video streaming.

OUR GLOBAL SYSTEMS AND SERVICES

Gericke offers flexible rental options, from individual machines to complete test systems. Our modular approach lets you mix and match components to create a customized production line.

Dosing

- Gericke Loss-in-Weight Feeders

Mixing / Blending

- Gericke GCM 450
- Gericke GBM

Downstream Processing

- Compatible with various partners (not exclusive to the partners listed below)

Analytics

- Extensive analytical Equipment

Find out more!

Wet Granulation

QbCon1 - L.B. Bohle

Direct Compression

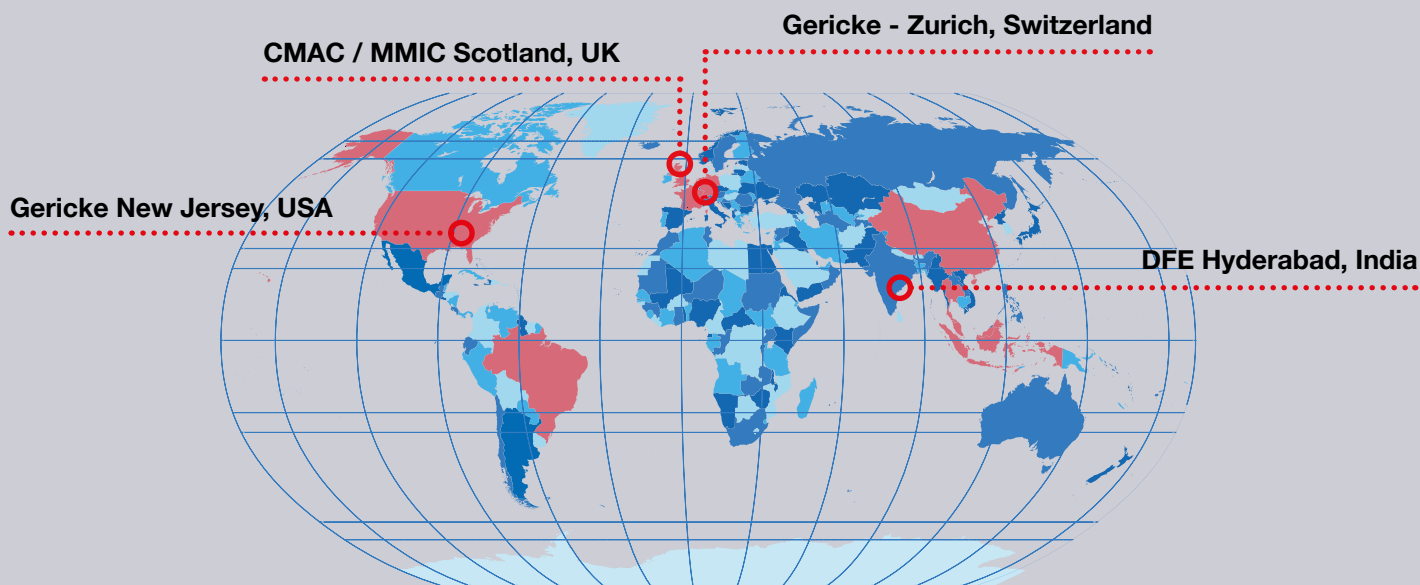

Premixa 80 - IMA

Dry Granulation

MiniFactor - Gerteis

OUR LOCATIONS

GERICKE - ZURICH, SWITZERLAND

Loss-in-Weight Feeders (max. 4 feeders):

- GZD 200.12 / 200.22
- FEEDOS S / M

Mixing / Blending:

- 10-100 kg/h: GCM 450
 - 50-1000 kg/h: GCM 500
 - 0-50 kg/h: GBM 10
- (Incl. Diverter, auto. Sampler)

Downstream Processing:

- Dry + Wet Granulation
- Tablet Compression

Analytics:

- Bulk properties
- UV / VIS

GERICKE NEW JERSEY, USA

Loss-in-Weight Feeders (max. 4 feeders):

- GZD 200.12 / 200.22
- FEEDOS S

Mixing / Blending:

- 10-100 kg/h: GCM 450
 - 0-50 kg/h: GBM 10
- (Incl. Diverter, auto. Sampler)

Downstream Processing:

- Various partners

Analytics:

- Bulk properties

CMAC / MMIC SCOTLAND, UK

Loss-in-Weight Feeders:

- GZD 200.12 / 200.22

Mixing / Blending:

- 10-100 kg/h: GCM 450
 - 0-50 kg/h: GBM 10 (2x)
- (Incl. PAT, diverter, auto. Sampler)

Downstream Processing:

- Tablet Compression

Analytics:

- Extensive analytics available

DFE HYDERABAD, INDIA

Loss-in-Weight Feeders:

- 2x GZD 200.12 / 2x GZD 200.22

Mixing / Blending:

- 10-100 kg/h: GCM 450
- (Incl. Diverter, manual sampler)

Downstream Processing:

- Dry + Wet Granulation
- Tablet Compression

Analytics:

- Broad range of analytics available
